

- SPARTAN -
CUT-PROOF AND FLAME-RETARDING BALACLAVA

OUTSIDE

SIDE

INSIDE

FEATURES

- Low breathing resistance for operational readiness under extreme conditions and climatic conditions
- Fits due to the improved cut to the head shape like a second skin
- Prevents pressure marks when wearing a helmet due to flat welds
- Protects from knife attacks by cutting due to usage of Kevlar® in the throat- and neck-area
- Multifunctional wearing thanks to the use-optimized cut for quick on and off during operations thanks to the locking mechanism in the neck area

DESCRIPTION

The balaclava „SPARTAN“ is flame-proof and cut-resistant. It was designed with an innovative cut protection in the throat- and neck-area to protect the operator from knife attacks. The „SPARTAN“ will provide protection to the exposed areas of the head and neck against heat and flame through all head positions, when worn with protective clothing, breathing apparatus and protective clothing.

FLAME PROTECTION

- Knitted Interlock
- Content:
92 % meta-aramid,
5 % para-aramid,
3 % antistatic fiber
- Weight: 205 g/m²
- EN ISO 11612:2015

EN ISO 11612:2015

CUT PROTECTION

- Knitted Interlock Layer
- Content:
Kevlar and Steel Fiber
- Weight: 380 g/m²
- ASTM F2292M-2015

USAGE

Designed for the special needs of the **Riot Police, Military and Special Forces**

Size: Standard size

Colors:

- black: art.no. 13-01-6-001
- brown: art.no. 13-01-3-001
- olive green: art.no. 13-01-1-001

5 cycles wash at 60°C according to ISO 6330:2012, method 6 N+F
