

# FLORIAN® PRO

Art. No. 501501

## CE 0197 EN 15090:2012 HI3 CI SRC - Typ F2A

Leather thickness 2.5 – 2.7 mm, waterproof and breathable with GORE-TEX® Performance, leg height 30 cm, antistatic, sole 011

Available sizes EU 36 – 47, Extra large sizes EU 48

501501

RTC with countersunk seams

HAIX® Climate System

Heel bend

### Upper Material

Waterproof leather, hydrophobic, breathable (5,0 mg/cm<sup>2</sup>/h), 2.5 – 2.7 mm thick.

### Inner Lining

GORE-TEX® Performance; 4-layer GORE-TEX® laminate, waterproof and breathable. Highly abrasion-resistant lining with fleece midlayer. Optimized- climate comfort for all year seasons and excessive use. Increased chemical protection.

### Non-woven insole

Non-woven insole absorbs moisture.

### Foot bed

Anatomically formed, exchangeable, washable, very good moisture absorption, dries quickly.

### Protective Toe Cap

Anatomically formed and well-padded protective toe cap.

### Protective Throughsole

Flexible protective throughsole.

### Sole

Foam/rubber, highly wear-resistant shell sole with a street/terrain tread, high temperature strength and good bending comfort. Ladder rung tread with pronounced heel front. Oil and gasoline resistance and non-marking characteristics. Compliant with EN ISO 20345:2011 / EN 15090:2012

### HAIX® CO System

Pressure relief, cushioning, correction of foot position/correct posture and muscular balance.

### HAIX® AF System

Ankle Flex System; allows pull-on boots to adapt to various foot shapes around the instep. Expandable stretch inserts enable problem-free insertion, variable instep adaptation and optimal grip in boot. Integrated bending zones in the instep and above the ankle are responsible for high flexibility during foot forward and backward movements (e.g. when kneeling down).

### HAIX® Climate System

The HAIX Climate system uses the pumping movement, which permits air circulation with every step – warm air is released and fresh air comes in through the vent holes at the top of the boot.

### HAIX® MSL System

MicroSoftLight: Improved damping, extremely low weight due to the PU foam across the entire sole area, good cold/heat insulation.

### Sun Reflect

Reduces the heating effect of the upper leather by direct sunlight. Sunlight is reflected by the leather, keeping the leather and the feet cooler.

### Others

Reflective stripe, rubber toe cap, pull on loops on both sides.
