

RESPI LIGHT Respirator Mask Bag

Compact pouch to hold a respirator mask with a minimum size

- ✓ clever & compact: space-saving, but yet suitable for larger respirator masks
- ✓ perfect fit: infinitely adjustable Dual carrying strap
- ✓ well protected: appropriate padding

Inner view with partial padding

RESPI LIGHT Respirator Mask Bag

Description

Compact pouch to hold a respirator mask, but with a minimum of space required for storage inside of fire engines!

The RESPI LIGHT is the ideal replacement for impractical plastic carrying-cases for respirator masks.

Hardly any another case is almost as compact and flexible as RESPI LIGHT respirator mask bag. Respirator masks are well protected by the partly padding of the bag.

Thanks to the infinitely adjustable dual carrying strap, bag can be worn on both, hip or shoulder.

A large marking area within the cover allows for permanent labelling.

Features:

- partly padding for protection of respirator mask
- variable carrying options due to Dual carrying strap
- inlying marking area for durable labeling
- exterior (business-)card compartment for labeling
- bag is washable at 40° C

Scope of delivery

RESPI LIGHT Respirator Mask Bag, carrying strap;
without further or pictured supplies
