

SHIFTBAG Clothing Backpack

The easy way to carry your protective clothing

- ✓ separate and hygienic: main compartment, boot case, and side pocket
- ✓ durable: robust fabric with PU coating
- ✓ tidied up: pocket for Filofax etc.

Clothing backpack with two separated and ventilated boot compartments

Padded shoulder straps and rear

Spacious and comfortable with two separated main compartments

Description

The SHIFTBAG with its volume of 50 liters and the ergonomic backpack-carrying-system comfortably accommodates your personal gear or spare clothes and boots – everything hygienically separated.

Your heavy boots can be stowed in two separate side compartments close to the body. Metal eyelets provide for ventilation of both boot compartments.

Two additional compartments of about the same size (about 13 liters volume) can be used to store used and fresh clothing separately. The 50 mm wide safety reflective stripe on the front provides for additional visibility.

Features:

- 2 separated boot compartments with eyelet for ventilation
- 2 separated clothing compartments with capacity of 13 liters each
- 1 front pocket with:
 - zipper pocket for valuables
 - small pockets and pen holders

- 50 mm high reflective-stripes at front
- hook-and-loop tape for individual labelling
- robust, non-absorptive and PU-coated bottom
- durable zippers
- high wearing-comfort thanks to:
 - padded rear of bag
 - breathable, padded shoulder straps

Scope of delivery

SHIFTBAG Backpack without any further or pictured supplies
