TROLLEYBAG: robust rolls

TROLLEYBAG with two closeable, foldable synthetic bags

TROLLEYBAG:
with detachable reflective stripe „FEUERWEHR“

Description

Spacious and comfortable bag for carriage of extensive equipment. No matter if you are on your way to training center, ambulance or fire station – inside of TROLLEYBAG you will find a lot of storage space.

Large main compartment (capacity: 80 liters) is designed for storage of complete protective clothing. Boots or wet clothes can be stowed away inside of two closable synthetic bags, included in delivery. Further equipment can be stowed in inner net pockets and exterior compartment. Padding protects items inside of bag against damage. Small front pocket provides space for storage of small items such as charge cable, wallet etc.

For comfortable carrying bag is equipped with ergonomic handle. For even more comfort, you can pull it like a trolley. Thanks to robust, big rolls and rugged slide bars also stairs are no obstacle.

Features:

- padded main compartment (approx. 80 liters) with 2 inlying net pockets and 2 closeable, foldable synthetic bags in different colours

- exterior compartment (65 x 30 cm)
- Organizer-compartment (25 x 25 cm) with pockets
- Plastic pocket (9 x 6 cm) for labelling
- ergonomic carrying handle and trolley handle
- robust and big trolley-rolls and slide bars at bottom
- reflective stripes at two sides
- hook-and-loop straps (38 x 5 cm) at both sides

Scope of delivery

Bag and two closable synthetic bags, without any further or pictured supplies
