PRODUCT CATALOGUE

2023

NORSE RESCUE®

NORSE or Norsemen were a North Germanic ethnolinguistic group of the Early Middle Ages, during which they spoke the Old Norse language. During the late eighth century, Scandinavians embarked on a large-scale expansion in all directions, giving rise to the Viking Age. Norse seafaring traders, settlers, and warriors are commonly referred to as Vikings.

The identity of NORSE RESCUE® is based on the very essence of our ancestors; NORSE RESCUE® will find and develop new and innovative products, focus on fair pricing to make products available for all Pre-hospital warriors no matter the battleground.

"MEDICINA BONA LOCIS MALIS" Good Medicine, Bad Places is a part of our DNA, and we know firsthand the challenges you face whether it is EMS in the streets or TCCC in theater. NORSE RESCUE® has your six all the way.

The series is under development, which means it will continue to expand and incorporate additional products. If there are any products missing from the series that the user or expert desires, please inform us, and we will strive to ensure that the NORSE RESCUE® series offers all the relevant products you need.

We are proud to announce this Nordic brand to you, where you will experience stability and good quality in all of the NORSE RESCUE® products. Our goal with the NORSE RESCUE® series is to make a reliable series of products that will give you the quality you need, but for affordable prices.

Feel free to look through the catalogue for descriptions of the products, and do not hesitate to contact us for any inquiries or questions.

The right equipment and good decisions at the right time matter. NORSE RESCUE® products will assist you in those crucial moments.

Stay safe out there.

A photograph of two men dressed in Viking-style armor. The man in the foreground has a full, dark beard and is wearing a brown leather tunic with circular metal studs over a grey chainmail shirt. He is holding a long, curved sword. The man in the background is also bearded and wearing similar armor, but is faded and less distinct. The background is dark and moody.

NORSE RESCUE® NASAL AIRWAY (NPA)

The NORSE RESCUE® Nasal Airway (NPA) size 28F – a tool designed to provide optimal patient care in emergency situations.

Crafted from soft PVC material, this NPA is specifically engineered to protect the nasopharyngeal mucosa, minimizing discomfort such as coughing and gagging during suctioning.

The Nasal Airway is designed with flexibility in mind, ensuring it maintains its shape and resists collapse and kinking.

This feature guarantees uninterrupted airflow, enabling efficient oxygenation and ventilation when every second counts.

PRODUCT SPECIFICATIONS

Item no.	AW-00057-1
Dimensions	17 x 6 x 2.5 cm
Size	28F
Weight/unit	10 g
Sales units	1 pc, 20 pcs, 400 pcs
Shelf life	4 years

Class Is   

NORSE RESCUE® OROPHARYNGEAL AIRWAY

The NORSE RESCUE® Oropharyngeal Airway – a tool designed to ensure unobstructed airflow during critical interventions. Specifically engineered to prevent airway occlusion caused by the relaxation of the tongue in unconscious patients, this device enables efficient ventilation and oxygenation.

The NORSE RESCUE® Oropharyngeal Airway (OPA) features a central lumen, allowing for the insertion of various suction catheters. This versatility ensures effective suctioning and clearance of secretions, maintaining a clear airway for optimal patient care.

PRODUCT SPECIFICATIONS

Weight/unit	80 g
Sales units	1 pc, 50 pcs
Shelf life	3 years

Class I 

NORSE RESCUE® CHEST SEAL, VENTED

The NORSE RESCUE® Chest Seal Vented – an advanced dressing designed to effectively treat open chest wounds. These penetrating injuries to the chest can result in open wounds that may lead to tension pneumothorax.

Its medical-grade hydrogel adhesive is specifically designed to maintain a secure seal on the skin, even in challenging conditions such as blood, sweat, hair, sand, or water. With four vented seals, this innovative design prevents the entry of airflow into the chest cavity during inhalation while allowing air to escape through strategically placed vent channels during exhalation.

PRODUCT SPECIFICATIONS

Item no.	BR-00187
Dimensions	14 x 10 x 1 cm
Size	15 x 15 cm
Weight/unit	46 g
Sales units	1 pc, 10 pcs, 200 pcs
Shelf life	5 years

Class I 

NORSE RESCUE® CHEST SEAL, NON VENTED

The NORSE RESCUE® Chest Seal Non Vented – an advanced dressing specifically designed to treat open chest wounds. These penetrating injuries to the chest can result in open wounds that may lead to tension pneumothorax, a significant cause of preventable death.

Our Chest Seals are meticulously crafted with a medical-grade hydrogel adhesive that provides a strong and reliable seal, even in challenging conditions such as blood, sweat, hair, sand, or water. With NORSE RESCUE®, you can trust that the Chest Seal Non vented will securely adhere to the skin, ensuring effective wound management and helping to prevent further complications.

PRODUCT SPECIFICATIONS

Item no.	BR-00188
Dimensions	14 x 10 x 1 cm
Size	15 x 15 cm
Weight/unit	46 g

Shelf life	2 years

NORSE RESCUE® EMERGENCY BLANKET

The NORSE RESCUE® Emergency Blanket is a reliable and compact solution for emergency protection whether you're facing extreme temperatures, adverse weather conditions, or emergency situations. With its exceptional heat retention and reflection properties, it effectively preserves up to 90% of the body's heat.

Made from high-quality materials, this emergency blanket offers the same level of performance as more expensive foil blankets. It is waterproof, windproof, and designed to be compact and lightweight for convenient storage and portability.

PRODUCT SPECIFICATIONS

Item no.	EE-00261
Dimensions	12 x 7 x 1 cm
Size	140 x 210 mm
Weight/unit	53 g
Sales units	1 pc, 200 pcs
Shelf life	N/A

Class I

NORSE RESCUE® SPLINT

The NORSE RESCUE® Splint is a lightweight and malleable aluminum splint designed for splinting all extremities. Made of foam-padded aluminum, it provides softness and adaptability for maximum patient comfort.

This splint can be easily shaped into a simple C, W, or T-shaped curve, providing rigidity and support to fractured or injured limbs. It can be cut to fit any size using a scissor, ensuring a customized fit for effective immobilization.

Compact, waterproof, and easily rollable or foldable, it is suitable for use in various environments while enabling convenient storage.

PRODUCT SPECIFICATIONS

Item no.	IM-00047
Dimensions	15.7 x 11 x 3.3 cm
Size	36" / 91,4 cm
Weight/unit	155 g
Sales units	1 pc, 100 pcs
Shelf life	N/A

WE SUPPORT YOU IN SAVING LIVES

NORSE RESCUE® COHESIVE BANDAGE

The NORSE RESCUE® Cohesive Bandage – a breathable bandage with a double adhesive effect that ensures it sticks to itself and not to the skin.

The NORSE RESCUE® Cohesive Bandage is specifically designed for fixation bandaging, retention of wound dressings, and providing light compression support. Its cohesive properties allow for secure and reliable bandage application, minimizing the risk of slippage or discomfort.

PRODUCT SPECIFICATIONS

Item no.	CL-001119
Dimensions	7.5 x 5 x 5 cm
Size	7.5 cm x 4.5 m
Weight/unit	20 g
Sales units	1 pc, 16 pcs, 192 pcs
Shelf life	3 years

Class I

NORSE RESCUE® ELASTIC CREPE BANDAGE

The NORSE RESCUE® Elastic Crepe Bandage is a 10 cm x 4.5 m bandage designed to provide reliable support and compression.

Made from elastic crepe material, this bandage offers flexibility and stretchability, allowing for comfortable and secure wrapping around joints and limbs.

The NORSE RESCUE® Elastic Crepe Bandage is an essential tool for managing sprains, strains, and other injuries that require compression and stabilization.

PRODUCT SPECIFICATIONS

Item no.	CL-001120
Dimensions	10 x 4.2 x 4.2 cm
Size	10 cm x 4.5 m
Weight/unit	36 g

NORSE RESCUE®

BURN WOUND KIT

The NORSE RESCUE® Burn Wound Kit is a compact and lightweight solution designed to be easily distributed during mass casualty events involving burn victims. It contains a selection of highly effective NORSE RESCUE® products specifically tailored for pre-hospital burn wound treatment.

One of the key components of the kit is the BurnTec hydrogel dressing, renowned for its exceptional cooling properties. This dressing ensures uniform coverage and distribution of cooling activity, offering effective relief and treatment for burn injuries, including extensive ones.

The NORSE RESCUE® Burn Wound Kit provides a comprehensive solution for addressing burn wounds in the pre-hospital environment, making it a valuable resource for managing burn-related emergencies.

The small kit includes essential items:

- 1 x BurnTec 10 x 10 cm: Highly effective hydrogel dressing for burn wounds.
- 1 x NORSE RESCUE® Cohesive Bandage: Provides secure and flexible fixation.
- 1 x NORSE RESCUE® Emergency Blanket: Compact and weather-resistant emergency protection.

The large kit offers expanded capabilities:

- 1 x BurnTec 5 x 5 cm: Additional hydrogel dressing for smaller burn wounds.
- 1 x BurnTec 10 x 10 cm: Hydrogel dressing for effective cooling and treatment.
- 1 x BurnTec 20 x 40 cm: Larger hydrogel dressing for extensive burn injuries.
- 1 x NORSE RESCUE® Cohesive Bandage: Ensures firm and adaptable bandaging.
- 1 x NORSE RESCUE® Emergency Blanket: Provides all-weather emergency coverage.
- 1 x NORSE RESCUE® Nitrile Gloves: Protective gloves for safe handling.
- 1 x NORSE RESCUE® EMT Shears: High-grade scissors for cutting materials.

These kits can be customized to suit specific needs, ensuring that the necessary supplies are readily available for effective burn wound treatment in various situations.

NORSE RESCUE® LIGHT EXTRICATION DEVICE

The NORSE RESCUE® Light Extrication Device is a versatile tool that serves various purposes in emergency situations, including everyday emergencies and mass casualty scenarios. It functions as a disposable Backboard cover and a Patient Transfer System, facilitating seamless patient handling and transfer.

With a load capacity of over 1500 kg, the device ensures robust support and stability during patient transport. It features six large handholds, allowing for easy and secure handling of the patient, while also enhancing the overall usability of the product.

Constructed with water-resistant coated woven polyethylene, the device offers durability and strength, even in challenging environments. It can withstand washing at temperatures up to 40 degrees Celsius, maintaining cleanliness and hygiene standards.

The NORSE RESCUE® Light Extrication Device is designed to provide reliable support and ease of use in critical situations. Its multifunctional capabilities, high load capacity, and durable construction make it an essential component of emergency preparedness and patient care protocols.

NORSE RESCUE® NITRILE GLOVES, 1 PAIR

The NORSE RESCUE® Nitrile Gloves are available in various sizes and are specifically delivered in a bright blue color, as per the request of our valued customers.

These gloves are designed to provide a reliable barrier for hand protection during various tasks and procedures. They are made from nitrile material, which offers excellent puncture resistance and durability while being free from latex and powder. This makes them suitable for individuals with latex allergies and reduces the risk of powder-related skin irritation.

For convenient storage and distribution, the gloves are delivered in a small cardboard package in pairs.

The NORSE RESCUE® Nitrile Gloves are a valuable addition to medical, first aid, and personal protective equipment (PPE) supplies, offering reliable hand protection and promoting hygiene in a range of settings and applications.

LIGHT MEDIC BAG

The NORSE RESCUE® Light Medic Bag is a large and practical backpack designed for carrying your essential medic equipment. It offers ample space and organization options to accommodate your supplies. (Content sold separately)

For added comfort, the Light Medic Bag is equipped with adjustable shoulder straps, ensuring a comfortable fit even when carrying heavy gear. This feature helps distribute the weight evenly and reduces strain on your shoulders.

The front of the bag features a Velcro area where you can attach your desired bag patch (NORSE RESCUE® bag patch sold separately), allowing you to personalize your bag.

Velcro front enables personalized patches (sold separately).

NORSE RESCUE® SQUAD BAG

The NORSE RESCUE® Squad Bag is a versatile and spacious bag designed to meet the demands of emergency response personnel. It features a large central compartment that provides ample storage space for essential equipment and supplies.

With its multiple attachment points, the Squad Bag offers flexibility in how it can be carried and customized. It can be used as a fanny pack, worn over the shoulder, or attached to 3-day assault packs for additional load carriage options. The bag is also equipped with MOLLE-style webbing, allowing for easy attachment of compatible pouches and accessories to further expand its carrying capacity.
