The NORSE RESCUE® Light Extrication Device is a washable soft stretcher with three carrying handles on each side.

It can be used in multiple ways. Whether it is for everyday emergency or mass casualty and disaster preparedness. The device works for disposable Backboard cover and Strapping Support System, disposable Patient Transfer System to move the patient from the backboard to the hospital gurney etc.

Will hold up to 226kg load capacity and features 6 large hand holds which allow for easy patient handling and ease of product use.

Water resistant coated woven polyethylene provides strength and durability and can be washed at 40 degrees Celsius.
