

IONIC
RESCUE

The IONIC Pro Matrix is the ultimate Rescue PFD which has been specifically designed for water rescue professionals, when operating in extreme conditions and where performance is paramount. The ergonomic design incorporates a comfortable and secure fit optimising operational performance both in and out of the water.

The Pro Matrix has a high level of buoyancy incorporating deep cut arm holes allowing the rescuer a full range of arm rotation when swimming.

Large stowage capacity can be found in the large design front pockets, which include gear clips and stretch mesh gear pouches. In addition 2 smaller front pockets are designed to fit a rescue knife or rope cutter. The rear of the PFD incorporates a removable pouch for additional stowage when required.

SAF30055
